

Ansonia Clock Company - Solid Mahogany Shelf Clock - Completely Refurbished - (circa 1860s)

Ansonia Clock Company - Completely Refurbished Shelf Clock

This American Civil War era shelf clock was found in a mess of a condition. It was completely restored (case, glass, and movement) and brought back into very nice overall condition.

The solid mahogany case measures 13-1/2" high x 10-3/8" (at the widest part of

the base) x 4-3/8" deep (at the widest part of the base.) The back panel of the case is hand planed solid mahogany.

The original paper is still adhered to the inside of the back and is still legible for the most part.

The dial is being left original with all of its aged patina.

The movement was complete disassembled, cleaned and reassembled.

Item ID: WNS-CLK-147
