

Martin - German Made - Granddaughter Tall Case Floor Clock - (circa 1950s)

Here is a fully restored Martin Granddaughter Tall Case Floor Clock (the case has been completely restored and the movement has been cleaned, oiled and adjusted.) It measures 64 inches from the floor to the top of the finial, 13 inches at it widest point, and 8 inches deep. The brass bob is actually a swinging weight. The movement is a German-made eight-day time and strike (with Westminster chimes.) It dates to the 1950s.

Item ID: WNS-CLK-122
